

S.No	Question	Answer Options	
1	Choose the correct answer : What device is used to measure current?	Voltmeter	<input type="checkbox"/>
		Ohmmeter	<input type="checkbox"/>
		Ammeter	<input type="checkbox"/>
		None Of The Above	<input type="checkbox"/>
2	Choose the correct answer and fill in the blank : Resistance is measured in _____.	Ohm	<input type="checkbox"/>
		Volts	<input type="checkbox"/>
		Kelvin	<input type="checkbox"/>
		Ampere	<input type="checkbox"/>

3

Choose the correct answer and fill in the blank :
Generators work on the principle of _____.

Sonar

Radar

Electromagnetic Induction

None Of The Above

4

Fill in the blank with the correct word : The longer line for the symbol of a cell represents its _____ terminal.

Answer

5

State whether the sentence is true or false : In a series circuit, if the number of bulbs increases in the circuit, the reading on the ammeter decreases.

True

False

Correct Answer is

1. Correct Ans option is Ammeter
2. Correct Ans option is Ohm
3. Correct Ans option is Electromagnetic Induction
4. Correct Answer is positive
5. Correct Ans option is True
