

S.No	Question	Answer Options	
1	Choose the correct answer and fill in the blank : Generators work on the principle of _____.	Sonar	<input type="checkbox"/>
		Radar	<input type="checkbox"/>
		Electromagnetic Induction	<input type="checkbox"/>
		None Of The Above	<input type="checkbox"/>
2	Choose the correct answer and fill in the blank : Resistance is measured in _____.	Ohm	<input type="checkbox"/>
		Volts	<input type="checkbox"/>
		Kelvin	<input type="checkbox"/>
		Ampere	<input type="checkbox"/>

3

Choose the correct answer :  
What device is used to  
measure current?

Voltmeter

Ohmmeter

Ammeter

None Of The Above

4

Fill in the blank with the  
correct word : The longer  
line for the symbol of a cell  
represents its \_\_\_\_\_  
terminal.

Answer

\_\_\_\_\_

5

State whether the sentence  
is true or false : In a series  
circuit, if the number of  
bulbs increases in the circuit,  
the reading on the ammeter  
decreases.

True

False

Correct Answer is

1. Correct Ans option is Electromagnetic Induction
2. Correct Ans option is Ohm
3. Correct Ans option is Ammeter
4. Correct Answer is positive
5. Correct Ans option is True
