

S.No	Question	Answer Options
1	Find the surface area : Surface area of a cone if its slant height is four times the radius, and base diameter of the cone is 10 cm. = _____	Answer _____
2	Find the surface area : The sphere has radius of 6.9 cm = _____	Answer _____
3	Find the surface area : A cube with side 9 cm = _____	Answer _____
4	Find the surface area : A cone with a radius and height of 3.9 cm and 9.3 cm = _____	Answer _____
5	Find the surface area : The sphere has radius of 8.3 m = _____	Answer _____

Correct Answer is

1. Correct Answer is 392.85
2. Correct Answer is 598.28
3. Correct Answer is 486
4. Correct Answer is 171.34
5. Correct Answer is 865.7
